CHARACTERIZING CHEMICALS IN COMMERCE:

USING DATA ON HIGH PRODUCTION VOLUME (HPV) CHEMICALS

CONFERENCE GOALS:

- Educate stakeholders about the EPA High Production Volume (HPV) Challenge Program data and other sources of chemical toxicity and environmental information
- Share experiences of key stakeholders about the uses of data made available by the EPA HPV Challenge Program and other data sources
- Develop ideas on how to make sources of HPV chemicals information and other data user friendly, accessible, and relevant to a diverse audience

PARTICIPANTS:

- Federal, state, tribal, and local environmental and public health officials from the U.S. and other countries
- Industry representatives
- Academic researchers
- Non-governmental and community organizations
- Labor organization representatives

EXCHANGING IDEAS AND INFORMATION
